| LOT | U.S. COINS | VALUE |
|-----------------------|---|--------------------------|
| Colonial Coins | | |
| 1 | 1786 Connecticut Mailed Bust Facing Left. Fine or better detail w/ a very appealing coloration. See the pic! | EST P 150-200 SE |
| 2 | 1787 Massachusetts Cent "Horned Eagle" variety PCGS VF Detail Corroded. Modest environmental damage on the obv, but the rev is beautifully detailed, and overall, this would make an excellent type coin for this particular Colonial. Inspect! | EST P 350-500 SE |
| Half Cents | | |
| 3 | 1834 Classic Head PCGS AU Detail Damaged. A few stray marks in the left obv field keep this coin from a straight grade. However, nice overall, and lovely brown color. | EST P 100-20 SE |
| 4 | 1850 at least XF+ perhaps better. Lovely medium brown w/ minimal imperfections. One of the most sought-after dates in the entire series, and scarcest of the later half cents. | EST P 270-350 SE |
| 5 | 1853 Coronet Head AU+ light brown. | EST P 125-150 SE |
| 6 | (4) incl 1800 G+, 1807 G+, 1809 VG, & 1810 VG. Nice originals. | EST 300-350 SE |
| 7 | (2) Classic Heads: 1809 G & 1826 abt F both brown w/ no damage. | EST 100-125 SE |
| Large Cents | | |
| 8 | 1794 Head of 1794 S-54 (R3) PCGS XF Details Environmental Damage. Great detail on a planchet that shows modest microscopic pitting under magnification. The S-54 is known for being struck on unusually thick planchets. Details grades are the norm for the early large cents, and as such, the present example is an appealing coin overall. In comparison to the Greysheet XF40 bid of \$3,500, our estimate seems quite conservative. | EST P 2,200-2,600 HWC-SE |
| 9 | 1795 Lettered Edge S-75 (R3) NGC XF Details Burnished. Glossy and nicely preserved, the biggest issue being a small gouge running from Liberty's eye to her ear. Still an attractive coin. Greysheet bid for XF40 is \$3,600 for comparison. | EST P 2,000-2,500 HWC-SE |
| 10 | 1795 Plain Edge S-78 VG perhaps VG+. This variety is unique in that in the rev wreath, it has only 4 berries on the right and 3 berries on the left, while all other 1795 varieties have 9 total berries. This is a very attractive coin w/ medium brown color. | EST P 360-450 SE |
| 11 | 1797 Rev of 1797 w/ Stems S-128 (R3) PCGS VF Details Repaired. The repair is clearly a smoothing of the coin's surfaces to lessen the effect of the general porosity of the planchet. The coin is not "expertly" recolored but the quality is adequate. | EST P 700-900 HWC-SE |
| 12 | 1798 over 7 (1st Hair Style) S-152 (R2) PCGS VF Details Corrosion. Undoubtedly excavated still adequate detail especially on the rev. (Greysheet bid for VF = \$1,600.) | EST P 1,100-1,250 HWC-SE |
| 13 | 1798 2nd Hair Style S-176 (R4) NGC VF Details - Environmental Damage. Even flat-brown color. Nice enough to have straight-graded - there was really no need to indicate the environmental damage. A nice coin especially for a scarcer variety. (Greysheet bid for VF = \$1,500.) | EST P 1,000-1,200 HWC-SE |
| 14 | 1798 2nd Hair Style S-185 NGC VF20 Brown. In this variety, the 9 in the date sits low, but it must be an early die state because the cracks that are sometimes seen in the right obv field are not there. Lovely dark brown color. | EST P 600-750 SE |
| 15 | 1800 S-207 (R3) NGC VF Details - Corrosion. Even dark brown color. The rev cud under "100" that defines the variety shows plainly. | EST P 400-550 HWC-SE |
| 16 | 1803 Sm Date Sm Fraction S-259 (R4) PCGS XF Details - Environmental Damage. Some texturing of the surfaces but evenly colored, and overall, a lovely example of this scarce variety. (Greysheet bid for XF40 = \$2,000.) Inspect! | EST P 1,100-1,300 HWC-SE |
| 17 | 1807 Large Fraction S-276 (R1) NGC AU Details - Environmental Damage. An evenly colored, well-preserved coin. Shows about 150-degree die rotation which this variety is known for. (Greysheet AU bid is \$2,000.) | EST P 1,250-1,500 HWC-SE |

| | | | | |
|--------------------------|--|-------|---------|-------|
| 18 | 1814 Plain 4 S-295 Good. Beautiful chocolate brown w/ even wear. Research indicates that the 1814 Plain 4 issue was actually struck in 1816 due to a dramatic increase in the demand for one-cent pieces caused by their non-issue in 1815. (No cents were coined in 1815 because a fire had destroyed the mint's rolling mills.) The 1814 Plain 4 issue was struck early in 1816 to fill the immediate need for cents because the dies with the new Matron Head design that replaced the Classic Heads would not be completed until later that year. (Matron Head cents would ultimately be issued continuously thru 1834.) | EST P | 100-125 | SE |

| Shield Nickels | | |
| 38 | 1868 MS60. Rev may show very slight wear but since there's hardly a price difference between AU58 and MS60, we'll give the benefit of the doubt. In any event, a nice Shield Nickel excellent for type. | EST P 85-110 SE |
| 39 | 1869 AU. A bit weakly struck in the center but w/ interesting doubling on the date and part of the obv legend. | EST 74-90 SE |
| 40 | 1883 nice MS60+. Flashy coin w/ bright surfaces and a bold strike. | EST P 85-110 SE |

| Half Dimes | | |
| 46 | 1839 Seated (No Drapery) lovely orig AU+. There are some well-hidden light scratches on this coin but they blend in perfectly with the coin's natural color and are only visible w/ magnification. An excellent coin otherwise. | EST P 125-150 SE |
| 47 | (8) Diff Seated incl 1837 No Stars G, 1839 VF35 Detail Cleaned, 1849-O G (better date), 1856 ANACS VF Detail Cleaned, 1857 ANACS VF Detail Cleaned (?), 1858-O VG, 1868-S XF light scr, & 1873 VF+. Overall, a pleasing group of half dimes (regardless of what the ANACS labels indicate.) | EST 180-230 SE |

| Seated Dimes | | |
| 49 | 1843-O AG++ original. A slightly weak area on the rev @K10 is only thing keeping this coin from full G. A much better date and expensive in higher grade. Well worth inspection. | EST 90-115 SE |
| 50 | (4) Diff incl 1838 Large Stars (DD Rev) ANACS F12, 1838-O No Stars ANACS G6, 1840 ND ANACS F12, and a raw 1877-CC VF. Lovely coins. | EST 130-165 SE |

| Mercury Dimes | | |
| 52 | 1917 ANACS MS64 FSB. White, mark-free and great detail. The mint changed the obv hub for Mercury Dimes in 1917. A small fraction of the 1917 issue (David Lange, author of "A Complete Guide to Mercury Dimes", suggests 10 to 15%) were struck with the original hub (known as the Type of 1916). However, the present coin represents the more common "Type of 1917". The differences are very subtle. | EST P 100-125 SE |
| 53 | 1921-D PCGS Fine 12. Beautiful original grey color. | EST P 125-150 SE |

| Barber Quarters | | |
| 61 | 1901 Proof PR55 The detail and mirror finish on the surfaces indicate that the coin is a proof though it appears to have been very lightly circulated. It also appears that the coin has had a careless wiping no doubt in an amateur effort to remove beautiful toning. Nonetheless, it maintains an attractive appearance overall. | EST P 200-250 SE |
| 62 | 1903 Uncirculated. A bright coin still appealing but obviously cleaned. | EST P 115-140 SE |

| 69 | 1813 O-110 F perhaps a bit better. This variety is known for heavy die clashing and on this example, the letters of E PLURIBUS UNUM appear rather prominently under the bust. Other areas show evidence of die clashing as well. A neat coin! | EST P 85-120 SE |

| Walking Liberty Halves | | |
| 79 | 1916 MS60 white. Flashy and well-struck w/ evidence of the beautifully textured fields the first-year-of-issue coins are known for. | EST P 350-450 SE |
| 80 | 1916-D MS60+ Obviously dipped but lovely appearance and very well-struck. | EST P 400-500 SE |
| 81 | 1917 MS60 perhaps a bit better. Full detail on brightened surfaces but devoid of the hairlines that render the "cleaned" look. Inspect! | EST P 125-160 SE |
| 82 | 1917-D (Obverse) AU++ white. Lovely in all respects but there is faint wear on the coin's highest points visible only w/ magnification. Truly a beautiful coin. | EST P 550-700 SE |
| 83 | 1917-D Reverse AU cleaned. Attractive for a much better date but faint hairlines adorn the obv as a result of the brightening. Still worthy of consideration given the scarcity of the date. | EST P 300-400 SE |
| 84 | 1917-S Reverse AU++. Similar to the lots that will follow this one, this coin is about as close to mint state as it gets. Great strike on the beautifully textured fields the 1916 and some of the 1917 are known for. | EST P 350-430 SE |
| 85 | 1918 AU+ brightened. Flashy appearance - looks mint state at first glance but close inspection shows very slight wear. | EST P 240-320 SE |
| 86 | 1918-D AU+ brightened. Worth serious consideration because this is one of the truly scarce issues in the Liberty Walking series. | EST P 550-700 SE |
| 87 | 1918-S AU+ brightened. Nice enough to look great in a BU set on the off-chance that someone is assembling one. | EST P 260-330 SE |
| 88 | 1920 AU58 white. Sometimes it can be difficult to accurately grade coins that have been brightened, but this coin has faint wear on some areas of the high points hence its assigned grade. We like to err on the conservative side but we also know that the major grading services occasionally grade coins such as the present one mint state. | EST P 300-360 SE |
| 89 | 1920-S AU+ brightened still very attractive and NO hairlines. Inspect! | EST P 400-600 SE |
| 90 | 1923-S MS60 Undoubtedly dipped and brightened but fully-struck for the issue and no discernable hairlines or other distracting features. It is a rare pleasure to see a 1923-S Liberty Walking Half this nice despite the fact that the surfaces are un-original. | EST P 2,000-2,400 SE |
| 91 | 1933-S MS62+ subtle golden toning w/ an excellent strike revealing Liberty's thumb and forefinger. Inspect! | EST P 700-850 SE |
| 92 | 1933-S AU+ a beautiful coin for a scarce date in high grade. (Unusual to have (2) 1933-S in high grade in the same auction.) | EST P 300-400 SE |

| 123 | 1893-CC NGC AU58. From a mintage of only 677,000 most 93-CCs saw heavy circulation soon after being minted, which accounts for why most surviving specimens are AG to F. ANY 93-CC XF or above is a very scarce coin. The present example is white and shows extremely light wear. Better yet, it is virtually free of the heavy bagmarks that characterize most coins of this issue. | EST P 2,700-3,200 SE |

SPECIAL NOTICE REGARDING COVID-19

At the time of catalog production we are still under statewide restrictions which prevent us from having in person attendance at our auctions. The auction has been moved to a live online auction on Stamp Auction Network. Please stay tuned to your email as well as our Facebook and Instagram pages for any changes in these restrictions.

We have been working extremely hard to add more photos of as many of the lots as we can. We will also give buyers the opportunity to have expanded descriptions and video viewing so that even from a distance, they can bid with confidence.

During these changing times we are doing our best to bring the hobby to collectors and give sellers an outlet to sell product. We will continue to adapt as we find new ways to serve both. Thank you for your continued support over the years and during this time.
